

# Registered Apprenticeship Resources

## Example Standards and Work Processes

The resources below provide collections of standards and work process schedules that can be used to support Registered Apprenticeship program development.

---

### Work Processes Dropbox from the U.S. Department of Labor (US DOL)

---

The Work Processes Dropbox is an online repository created by the US DOL, which includes work process schedules for apprenticeable occupations. Note that the resources included in this repository are organized by occupation. We recommend searching the page for key words related to the occupation and industry you're working with.

---

### American Institute for Innovative Apprenticeship (AIIA) Website

---

Developed by the Urban Institute, the [American Institute for Innovative Apprenticeship](https://www.aiaa.org/) website has an online repository of resources to help in the development of Registered Apprenticeship programs. Urban Institute has been working with US DOL to develop consensus-based National Occupational Frameworks that assist employers and sponsors develop their programs, and apprenticeship officials evaluate new apprenticeship programs. The AIIA website also includes occupational work processes organized by industry sector.

---

### Healthcare Career Advancement Program (HCAP) National Library

---

This clearinghouse includes resources from current Registered Apprenticeship programs in the healthcare sector. The library is organized by occupation and includes on-the-job learning outlines, classroom instruction outlines, and other relevant information.
