Overview:

Illinois is committed to using a clear set of metrics in ensuring a customer-centered, transparent data-driven workforce system that meets the diverse needs of businesses and job seekers. The Illinois Performance and Accountability System (IPATS) is the foundation for informing aligned and integrated service delivery approaches that focus on continuous improvement and innovation. Data is input, managed, and maintained in IWDS, and it remains the system of record. IPATS will update based on data input into IWDS using the syncing timeframes identified in the footer.

Data Source:

This information is brought to you by the Illinois Workforce Development System (IWDS) and Department of Commerce and Economic Opportunity Office of Employment and Training. It is only available to authorized users but is intended to promote transparency of IWDS data. WIOA Participant count data is synced on a weekly basis on Saturday at 11:59pm. The data displayed is to serve as a reporting and management tool for tracking state workforce assistance program activity. This data will not be provided to outside parties or used to report to the Department of Labor as certified performance outcomes. Reporting will remain with each agency and be reported via their respective systems of record.

WIOA Participant Counts

The purpose of this tool is to provide an overview of New and Total WIOA participants and exiters at the statewide and local levels. It provides the ability to see week by week counts of new and total participants ranging back several years.

Accessing the tool

To access the tool, click the drop-down arrow next to Data Graphs and select **WIOA Participant Counts**.

Graph View for Statewide Total Participants, New Participants and Exiters by Week
