GRAPHICS STYLE GUIDE FOR ILLINOIS WORKNET® OUTREACH MATERIALS

Outreach Materials

The Illinois workNet® outreach materials have been designed to provide a consistent style, message and tone, and still allow customization by local Illinois workNet® Centers. The goal of all produced materials should be to provide:

- a) a consistent image,
- b) key messages for your local area, and
- c) key contact information to encourage action.

Graphics Style Guide

This Graphics Style Guide has been developed to clarify how to use the Illinois workNet® materials for maximum effectiveness. This guide explains step by step how to customize the templates for your Local Workforce Center while maintaining the established image of Illinois workNet®.

The templates will consist of areas that remain "as is" along with areas that can be customized. For example, the Illinois workNet® logo, main content, and website information cannot be edited but a Local Center can add their customized Illinois workNet® logo and contact information and replace the suggested text for items such as print ads. If you create any of your own materials, you will need to incorporate general graphic style and elements to maintain the standards.

Appropriate usage of the Disclaimer

The following disclaimer is required to be incorporated on all Outreach Material use.

The Illinois workNet® Center System, an American Job Center, is an equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities. All voice telephone numbers may be reached by persons using TTY/TDD equipment by calling TTY (800) 526-0844 or 711. This workforce product was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration. For more information please refer to the footer at the bottom of any webpage at illinoisworknet.com.

GRAPHICS STYLE GUIDE FOR ILLINOIS WORKNET® OUTREACH MATERIALS

Diagram of Use

1. Insert your individual center's adapted workNet® logo in the "Insert logo here" area.
2. Add your center's name to the disclaimer for increased legal protection.
3. Insert your center's contact information to provide an easy local reference.

When applied to text all colors above must be used as the foreground text color over background color white (#fff) OR when used as the background color when white (#ffffff) is applied as the foreground text color for text to meet a contrast ratio of at least 4.5:1. *Must be used as a background color with #333 as the text color.

These colors all meet the contrast ratio 5:1 (or higher) standard when used as the foreground color over background color white (#ffffff) OR when used as the background color when white (#ffffff) is applied as the foreground color. Success Criterion 1.4.3 of WCAG 2.0 requires the visual presentation of text and images of text has a contrast ratio of at least 4.5:1, except for the following: 1) Large Text: Large-scale text and images of large-scale text have a contrast ratio of at least 3:1; 2) Incidental: Text or images of text that are part of an inactive user interface component, that are pure decoration, that are not visible to anyone, 3) or that are part of a picture that contains significant other visual content, have no contrast requirement.

GRAPHICS STYLE GUIDE FOR ILLINOIS WORKNET® OUTREACH MATERIALS

The Illinois workNet® Logo

Do not in any way alter or reformat the Illinois workNet® Center logo to include, but not limited to, shape, form, colors, fonts, or positioning of logo elements. A proof is required for approval before printing/producing requested materials.

The official logo, as represented above, should replace any form of the old identity. Size and position will be determined by available space and previous location, keeping within the minimum size parameters listed below.

For Terms of Use for the American Job Center logo from the U.S. Department of Labor, [visit this link](#).

GRAPHICS STYLE GUIDE FOR ILLINOIS WORKNET® OUTREACH MATERIALS

Logo - Minimum Size Requirementse / File Type

Illinois workNet® Primary Color Palette

For Print Materials

- If and when the logo is scaled down for commercially printed items, the proportions minimum requirement is 2.5" wide x 1" tall. This insures readability for the "american job center"
- An .eps file should be sent to printer for best results and quality.

For Website

- When using logos for website usage, the minimum size requirement is 182 px wide x 75 px tall.
- A .png or .jpg file should be used.

For F

- When applying the logo to a premium, like a pen, contact your vendor for the "live area" dimensions. You will then have to size your logo to fit that area, keeping the length and width of your original logo proportionate. These "live area" sizes will vary by vendor and premium. The minimum size to retain legibility is 1" wide x .5" tall. Please note: tagline and rule line may be removed if needed.
- An .eps file should be used for printer for best results and quality.

	Primary 1	Primary 2	Primary 3*
			
C	100	0	0
M	72	100	62
Y	0	79	97

B	144	47	34
Hex	004990	C4122F	E87722
PMS	280	187	158

When applied to text all colors above must be used as the foreground text color over background color white (#fff) OR when used as the background color when white (#ffffff) is applied as the foreground text color for text to meet a contrast ratio of at least 4.5:1.

*Should not be used as the text color. Must only be used as a background color with #333 as the text color.

Rev: 1/6/2025

GRAPHICS STYLE GUIDE FOR ILLINOIS WORKNET® OUTREACH MATERIALS

Logo Usage - Color versus Black and White

Color Usage

This is the most common use for the workNet logo. In-house and commercially printed items must use this full-color logo, such as: office materials, stationery, signage, advertisements and posters.

Full Color Logo

Black and White Usage

This is primarily to be used for newspaper ads, faxes, and certain premiums at the discretion of approved usage. Talk to your vendor about what version to use.

Black and White Logo

Logo Usage - Surrounding White Space

When using Illinois workNet® Center logos, there is a minimum white space required surrounding the entire logo proportionate to three-eighths of an inch (3/8" or .375"). This must be accounted for around all logos at any size.

Type 1 logo

Type 2 logo
