Provision of individualized counseling to clients to assist them in determining whether or not their existing skills are in demand in the local economy. If marketable skills are found to exist, the client should be directed to activities which assist him/her in obtaining job search skills or locating potential employment opportunities. If marketable skills do not exist, the client should receive information about skills which are in demand, the training needed to obtain employment in these occupations, and training assistance which can be provided by the WIOA program. In addition, note that case management is the act of connecting youth to appropriate services and not a program element. Case managers providing case management should not be reported as one of the 14 youth program elements in the PIRL.	N/A	N/A	Yes

Follow-Up Services: WIOA Title I Adult, Dislocated Workers and Youth DRAFT

PIRL DATA ELEMENT NO.	Service/Activity Label (IWDS)	IWDS Training Service ID	Definition
1412, 1503	<u>Follow-Up Services</u>	490	<p>Follow-up services must be provided, as appropriate, including: Counseling regarding the workplace, for participants in adult or dislocated worker workforce investment activities who are placed in unsubsidized employment, for up to 12 months after the first day of employment.</p> <p>20 CFR § 681.580 describes follow-up services as “critical services provided following a youth’s exit from the program to help ensure the youth is successful in employment and/or postsecondary education and training. Follow-up services may include regular contact with a youth participant’s employer, including assistance in addressing work-related problems that arise.” Follow-up services may begin immediately following the last expected date of service in the Youth program (and any other DOL program in which the participant is co-enrolled if the state is using a common exit policy as discussed in TEGL No. 10-16) when no future services are scheduled. Follow-up services do not cause the exit date to change and do not trigger re-enrollment in the program. The final rule also states that follow-up services for youth also may include the following program elements:</p> <ul style="list-style-type: none"> a) Supportive services; b) Adult mentoring; c) Financial literacy education; d) Services that provide labor market and employment information about in-demand industry sectors or occupations available in the local area, such as career awareness, career counseling, and career exploration services; and e) Activities that help youth prepare for and transition to postsecondary education and training. <p>Provision of these program elements must occur after the exit date in order to count as follow-up services. DOL recommends that when these services are provided as follow-up services they are coded as follow-up services in state/local management information systems as opposed to program services provided prior to program exit so that management information systems clearly differentiate follow-up services from those services provided prior to exit. In addition, such follow-up services should be documented in the case file that they were provided as follow-up services post exit.</p>
