## Purpose

The intake process is comprised of three main steps to ensure customers are eligible and suitable to participate in the program. The three main steps include:

1. Customers complete the online application either on their own or with a career planner. The Illinois workNet system will perform an eligibility screening halfway through the application to see if customers are eligible before moving further into the application.
2. Staff verify eligibility and enroll customers by:
  - a. Reviewing eligibility requirements and collecting the appropriate documentation.
  - b. Updating the eligibility status field to:
    - i. Enrolled, or
    - ii. Not Enrolled with the reason identified.
3. Staff provide the customer with the necessary information on how to access their career plan.
  - a. The system will generate talking points to cover with the customer and a way for the career planner to identify the information was provided.
4. AS NEEDED – When necessary, staff should inform customers of the program requirements and complete any additional assessments that might be needed.
  - a. The system provides a tool for customers’ assessments to be documented and saved with their Illinois workNet accounts.

## Who Enters/Maintains Data

**Customers** can complete the application online. Once submitted, the customer cannot update the information.

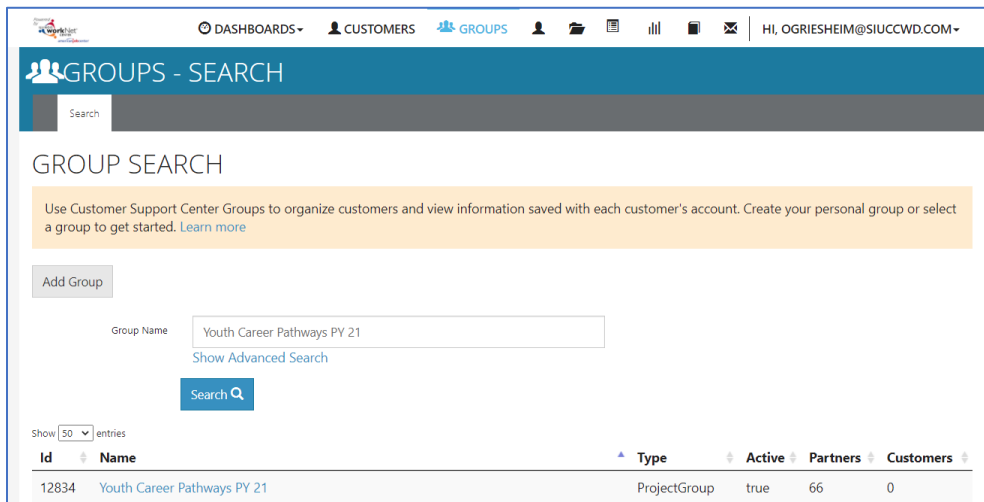

**Grantees/Career Planners** – Can complete and update their customer’s online application based on their conversation with the customer. Updates can be made to the application up to the point where the customer is enrolled in the Illinois workNet system. At that point, the intake form is locked. Users can identify required eligibility documentation, and update eligibility status information.

How Customers Access the Youth Career Pathway Application

1. Customers are added on the group page. They are either sent a link to access the application or the customer will complete the application with the grantee representative.
2. If completing the application on their own, customers will log in with their existing Illinois workNet account. An account may have been created for the customer by the individual who added them to the group.
3. The application is broken up into sections that the customer needs to complete. They can save and come back to the application at any time. It can be accessed through "My Dashboard".
  - a. Agree to the Terms of Use and complete the Application.
  - b. Profile, Situations, Education
  - c. Eligibility Screening Completed
    - i. If they are eligible
      1. Interests, Training, Job Goals, Job History, Other Considerations
      2. Submit application
    - ii. If they are not eligible
      1. They are provided information on accessing additional tools and resources to help them reach their employment and training goals.
4. Customers will work directly with the agency to complete the rest of the intake process.
