ROBERT GUZMAN

"The Pathways Navigator helped me identify my next steps. I knew that I wanted to pursue a career in health care, but I didn't know where to start. Through a Career Pathways Orientation, I learned about resources that were available to me –right up the street from my house! I look forward to starting a health care bridge training program; thanks to the Navigator for helping me pursue my goals."

~ VICTORIA AMBRIZ

"I always wanted to enter the construction field but didn't know where to start. When I met the Navigator, I shared that dream, but explained that I had no GED. Today, I am completing my 3rd week of GED courses. The Navigator stopped by class to share details about a construction pipeline to apprenticeships in union trades. It's motivating to know I have a Career Pathway in a skilled trade with on-the-job paid training, a competitive wage, and an environment where I can thrive."
