

Illinois Clean Energy Jobs Expo

About the Jobs Expo

- **Richland Community College**, in partnership with **Slipstream** are launching a **Clean Energy Jobs Expo** to connect students and job seekers with employers in clean energy careers.
- The Expo links future job seekers with career pathways and gives employers access to a diverse candidate pool.
- By participating, employers can boost visibility, build early relationships with candidates, and cultivate connections with CEJA Hubs.
- Event planning begins in September, with the Expo scheduled for spring 2026.

Anticipated Outcomes

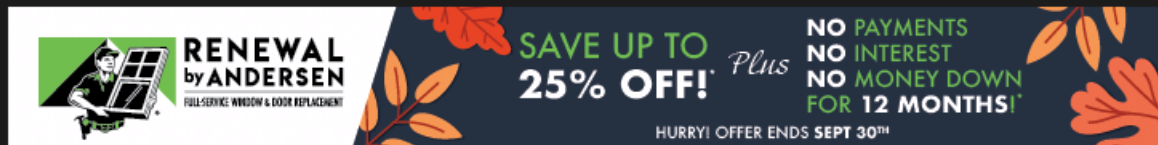

- Engage 150+ students and job seekers from across Illinois.
- Feature 15+ clean energy employers, training providers, and schools.
- Track employer follow-up interviews and hires.
- Strengthen school–industry partnerships to connect candidates with employers.
- Help employers identify emerging talent and build long-term recruitment strategies.
- Foster strong ties between Richland Community College, CEJA Hubs, students, and employers.
- Track all event media coverage.
- Produce a highlight video to showcase Expo outcomes.

POSITIVELY WISCONSIN

Wisconsin Public Service hosts energy career fair at NWTC for area high school students
