

IWDS-2.0 Manual Capture of Goals, Steps, and Services Plan

Youth (WIOA 1Y) — All Goal Types

Customer: _____

Career Planner: _____

Date Captured: _____

Employment

Build the skills you need to get and keep a job, like good communication, leadership skills, using computers, and managing your money.

Build your leadership skills by taking part in hands-on workshops where you'll practice speaking clearly, solving problems, and working with others.

Leadership Development

Develop skills to work, learn, and communicate in today's digital world.

Post-Secondary Prep & Transition Activities

Gain the skills needed to take control of your financial future and reach your goals.

Financial Literacy Services

Practice English language skills needed for work and your community, like taking part in volunteer activities, joining community events, or voting.

Leadership Development

Engage in community service and learn through hands-on projects to become more involved in your community and develop valuable skills for everyday life.

Leadership Development

Be a peer mentor to support others in learning and gaining confidence, whether in school or at work.

Leadership Development

Use what you know and share your thoughts to help make programs better for other young people.

Leadership Development

Get a full-time job like the one you had before in [Career Cluster], with similar or better pay and benefits.

Get help applying for unemployment benefits to receive support while looking for a new job.

Referral

Check out job market information to find opportunities that match your past experience.

Labor Market Information (LMI)

Work with a career planner to find out if your current skills are needed by employers in your area.

Career Awareness, Guidance, and Exploration

Talk to your career planner to learn which employers are hiring in your area and what skills they want.

Career Awareness, Guidance, and Exploration

Practice networking by talking with others and sharing information to build a career or personal connections, like in person or on social media.

Career Awareness, Guidance, and Exploration

Take part in job fairs and employer panels to learn about similar jobs that offer good pay and benefits.

Create and adjust your resume and cover letter to match the job you want.

Career Awareness, Guidance, and Exploration

Apply to job openings that match your skills, abilities, and interests.

Career Awareness, Guidance, and Exploration

Practice in mock (pretend) interviews to improve your interview skills.

Career Awareness, Guidance, and Exploration

Interview for jobs that match your skills, abilities, and interests.

Call or write to the employer to check on the job you applied for or interviewed for, so you stay informed and show you're interested.

Get connected with a full-time job or go to interviews your career planner sets up with possible employers.

Referred to Employment/Placement Assistance (STAFF ASSISTED)

Take part in short-term services that help improve and upgrade your current skills.

Career Awareness, Guidance, and Exploration

Grow your skills so you can find a job, keep it, and move up in your career by learning how to work well, solve problems, and stay professional.

Career Awareness, Guidance, and Exploration

Take part in certification exam preparation or credential-specific skills sessions.

Get a part-time or seasonal job while working on your career planning, job training, or school goals.

Create and adjust your resume and cover letter to match the job you want.

Career Awareness, Guidance, and Exploration

Attend job fairs and career events to learn about different job opportunities.

Apply to part-time or seasonal job openings that match your skills, abilities, and interests.

Career Awareness, Guidance, and Exploration

Practice in mock (pretend) interviews to improve your interview skills.

Career Awareness, Guidance, and Exploration

Interview for jobs that match your skills, abilities, and interests.

Call or write to the employer to check on the job you applied for or interviewed for, so you stay informed and show you're interested.

Start a new career in [Career Cluster] by using my strengths and learning new skills in an industry I haven't worked in before.

Get help applying for unemployment benefits to receive support while looking for a new job.

Referral

Look up job market information to see if there are good opportunities.

Labor Market Information (LMI)

Get information and materials to help you choose a career.

Career Awareness, Guidance, and Exploration

Work with a career planner to find out if your current skills are needed by employers in your area.
