CBO Benchmark Report Definitions

- SIU put together a document that outlines each of the rows on the benchmark report, what it is looking at, what customers have to be marked as to show in each specific row, how each row in the reports aligns in our enrolled dashboard, and which rows count for what benchmarks.
- This will be a fluid document as we make some additional updates based off of comments from our CBOs. The document can be found at the link below, it will be updated as changes are made.
- All CBOs should take a look at this document and make sure the numbers in their benchmark report are accurate. If not send an email to Dee or Olivia identifying the rows in the benchmark report that are off and a short description on what the issue is.
