Budget Modification due by 3-15 Noon

- The modification needs to reflect the numbers of customers served and money expended in addition to the numbers and money anticipated to expend for the new cohort.

New cohort

- Once approved by FNS, customers can be assigned by DHS or referred by the CBO. The system will allow a check of customers who may have been already randomized during that period. DHS will have 48 hours to approve customer eligibility before the agency can provide services that would be charged as a cost to the grant.

ISTEP report - past due steps

- Since many of the steps in the ISTEP count toward a benchmark, we advise that all OPEN and OPEN and PAST DUE steps be updated before 3-28-18.

Updates

- Post Random Assignment Service Report updates to number
- Additional row added to the benchmark report to reflect customers who were never enrolled but have a 2151 marked as Assessment Completed.
- Edit and delete options were added to the dollar value of an ISTEP service.
- Customers who move to a new CBO will have columns in the export that show the dates of enrollment under the re-engagement.
- Two columns were added to the customer export to reflect Work site placement job title and Work site placement industry.
