| Two Rivers Regional Council |  |  |  |  |  |  |

- Delete Customers Out of Payroll Who Did Not Work Any Hours
- When payroll is exported, it includes every customer who have been assigned to a worksite. If a customer worked 0 hours for that pay period, their row can be removed from the payroll. This helps to clean things up.
- Customer Employed Part-Time:
- We had a few CBOs send us some questions they had on customers who were employed part-time. We reached out to DHS who provided us with answers:
- If a customer works part time, 20-hours a week, but earns $\$ 935$ a month, would the customer be considered for retention?
- No, the customer would need to be engaged in an additional 10-hours to equal the 30-hours.
- Is the EPIC program retention based on hours of work or pay received?
- A minimum of 30 -hours a week is required for retention.
- In both or either case, what is the trigger for employment and/or retention?
- A minimum of 30 -hours a week.
- If the 30-hours a week is not being met for retention what is our obligation as well as the customer's obligation? For example, does the customer need to do additional job search, if so how much?
- The customer needs to meet the 30-hours a week at the minimum. Ten non-core activities can be added to meet 30 -hours a week as long as the core program expectation is being met. In this case, 20-hours a week of work.

## Update:

- Unenrolled customers can no longer be exited.
- Assessment Tab - Employment 101 now displaying results.
